Tyler Adams Promoted to Vice President of Makuta Technics, Inc.

[August 12, 2016]... Micro injection molder Makuta Technics, Inc. of Shelbyville, Indiana, announced today that Tyler Adams has been promoted to Vice President of the company.

In his new position, Adams will be responsible for management of the company's micro molding operations and the associated departments that ensure the quality, overall productivity and on-time delivery of the company's high-precision products.

Adams joined Makuta in 2011 as a Quality Engineer, and has served as Engineering Manager since 2013. He holds a Bachelor of Science in Industrial Engineering, and has attained Lean Six Sigma Black Belt Certification.

"We are very pleased to make this announcement," said Stu Kaplan, President. "Over the last five years, Tyler has been a key contributor to the growth and success of Makuta, from his technical expertise and commitment to product quality, to his team building capabilities and solutions-oriented approach to working with customers."

The Company

Makuta Technics, Inc. specializes in micro injection molding and micro mold tooling, producing millions of zero-defect micro parts each month for customers in the medical, pharmaceutical, microfluidics, electronics/office automation and automotive industries. The company's micro molding capabilities include clean-room, high-temperature, thin-wall, two-shot and over-molding, and its molding facility is ISO 9001-2009 certified and audited
